Katko appoint APS Industrial as new master national distribution partner

In a move that will bring a complete range of switches and switching solutions to Australia, Katko have appointed APS Industrial as their master national distribution partner. The agreement that came into effect on July 1, 2018, further strengthens APS Industrial's ability to fully service Australian industry with the broadest portfolio of industrial low and medium voltage electrical and automation products,.

With close to 80 years of experience in designing and manufacturing load break switches, isolators and switch fuses, from their inception, Katko have been focussed on product innovation and customer service.

"Katko is a world leader in innovation committed to designing products and solutions tailored to a range of industry needs, and these are values that very much align with APS Industrial", said David Hegarty, Managing Director of APS Industrial.

"Using these synergies as the foundation of our partnership, we are very excited by what we will together be able to provide Australian industry through this market leading range of switches and switching solutions", Mr Hegarty continued.

Based in Finland and with manufacturing facilities both there and in Poland, Katko is sold in over 70 countries (and 6 continents) around the world. For more information on the Katko and APS Industrial distribution partnership as well as the range of products available, please contact your local Sales Representative or visit apsindustrial.com.au
