**Introducing the 'DB Ultimate' range of distribution boards
from APS Industrial**

APS Industrial are proud to release the first range in what will become a complete family of 'DB' distribution boards that are custom designed for the demands of Australian industry and feature world-class technology and innovation.

As part of this initial release, the 'DB Ultimate' range of competitively priced distribution boards are exclusive to APS Industrial, purpose-built for compatibility with Siemens circuit breakers and feature an enclosure by the world's leading supplier of innovative enclosure technology, Rittal.

Combining the shared expertise and experience of these leading global manufacturers that also draws on KATKO switching technology and Weidmüller surge protection, the 'DB Ultimate' sets the benchmark for quality, flexibility, compliance and intelligence.

In a move that will revolutionise distribution board assembly and installation, the 'DB Ultimate', within the 'DB family' of distribution boards also feature a unique removable one-piece gear tray assembly that enables full assembly and wiring independent of the enclosure itself. This exciting feature provides unparalleled flexibility in design, assembly, installation, commissioning and future retro-fitting.

Ideally suited to high-end industrial applications, the 'DB Ultimate' is a true industrial distribution board designed for arduous and heavy-duty environments and comes standard with the following features:

- Rittal IP66/IK08 Rated Enclosure
- Removable Gland Plates (Top and Bottom)
- Dual Earth Neutral Bars
- Continuous Poured Door Seal
- Removable Hinged Escutcheon and Door (Reversible)
- Semi Flush Rittal Swing Handle (2 Keys)
- DIN Rail (Top and Bottom)
- Three point locking system

In addition to the core set of standard features, the 'Ultimate DB' range offers a full complement of accessories to ensure your delivered distribution boards meets your project requirements.

"Since we launched in 2018, APS has represented a new choice for industry that is determined to take each step with a 'customer first' approach. As of today, we're pleased to extend that promise and philosophy to a complete range of Australian designed distribution boards", said David Hegarty, Managing Director of APS Industrial.

"We've listened to our customer base and partnered with Rittal to manufacture a product that will deliver exceptional performance and genuine value for money. Our ability to offer IP66 as standard in the 'DB Ultimate' highlights this and by purpose-building the chassis for Siemens circuit breakers we're further enabling the local market to experience the best the world has to offer", Mr Hegarty continued.
