

New Choice Experience Tour - Agenda

THURSDAY 12TH MARCH, 2020

MORNING SESSION

| 8:30am – 9:15am

REGISTRATION (complete with coffee and standing breakfast)

KEYNOTE PRESENTATIONS

| 9:15am – 9:45am

NEW TECHNOLOGIES DETERMINE THE FUTURE OF AUTOMATION

Digitalisation opens up undreamed-of potentials to raise productivity, but what does it mean to Australian business? To benefit from the digital enterprise it's crucial to utilise the best of automation, digitalisation and IT. When innovation can be adapted to fulfil the demanding requirements of industry, they can drive productivity and availability to new heights. This presentation will discuss emerging technologies such as Edge Computing, Machine Learning and Artificial Intelligence and how these futuristic topics are now being realised to provide new possibilities to solve traditional problems in our work places.

| 9:45am – 10:15am

CYBERSECURITY FOR INDUSTRY 4.0 – MITIGATING CYBER THREATS FOR CRITICAL OT INFRASTRUCTURE

The fourth industrial revolution, also known as Industry 4.0, is creating a paradigm shift in virtually all industries on a global scale. The digitalisation and interconnectivity of industrial and process control systems underpins a myriad of business and operational efficiencies; however, these efficiencies do not come without their own set of challenges. In particular, digitalisation and greater interconnectivity increases cybersecurity threat vectors which must be managed in order to ensure the availability, performance, safety and reliability of mission-critical OT infrastructure.

| 10:15am – 10:45am

REDUCING DESIGN, MANUFACTURING AND ASSEMBLY TIMES THROUGH DIGITALISATION

The digitalisation and automation of industrial control and switchgear design and manufacturing creates consistency throughout all processes and systems, increasing quality whilst significantly reducing manufacturing and assembly time. Rittal and EPLAN help industrial companies to add value to their processes and make them faster, more economical and more precise.

| 10:45am – 12:30pm

Mini trade show with product experts, buffet lunch, beverages and networking.

EVENING SESSION

| 4:30pm – 5:15pm

REGISTRATION (complete with tea and coffee)

KEYNOTE PRESENTATIONS

| 5:15pm – 5:45pm

NEW TECHNOLOGIES DETERMINE THE FUTURE OF AUTOMATION

Digitalisation opens up undreamed-of potentials to raise productivity, but what does it mean to Australian business? To benefit from the digital enterprise it's crucial to utilise the best of automation, digitalisation and IT. When innovation can be adapted to fulfil the demanding requirements of industry, they can drive productivity and availability to new heights. This presentation will discuss emerging technologies such as Edge Computing, Machine Learning and Artificial Intelligence and how these futuristic topics are now being realised to provide new possibilities to solve traditional problems in our work places.

| 5:45pm – 6:15pm

CYBERSECURITY FOR INDUSTRY 4.0 – MITIGATING CYBER THREATS FOR CRITICAL OT INFRASTRUCTURE

The fourth industrial revolution, also known as Industry 4.0, is creating a paradigm shift in virtually all industries on a global scale. The digitalisation and interconnectivity of industrial and process control systems underpins a myriad of business and operational efficiencies; however, these efficiencies do not come without their own set of challenges. In particular, digitalisation and greater interconnectivity increases cybersecurity threat vectors which must be managed in order to ensure the availability, performance, safety and reliability of mission-critical OT infrastructure.

| 6:15pm – 6:45pm

REDUCING DESIGN, MANUFACTURING AND ASSEMBLY TIMES THROUGH DIGITALISATION

The digitalisation and automation of industrial control and switchgear design and manufacturing creates consistency throughout all processes and systems, increasing quality whilst significantly reducing manufacturing and assembly time. Rittal and EPLAN help industrial companies to add value to their processes and make them faster, more economical and more precise.

| 6:45pm – 8:30pm

Mini trade show with product experts, canapés, beverages and networking.
